For more information, about Cosmetics Safety Visit Skin DeepA®, and stay up to date with the latest in regulation with our cosmetics center. EWG created our Skin Deep® database as a way to combat serious deficiencies in regulation 3. When you search the Skin DeepA® Cosmetics database, you can find a number of unprotected products 3 the top of your search results. Find product and ingredient safety ratings, health information 3 cosmetic ingredients, and smart shopping tips you can trust. Enter your name in the white search window. EWG Verified "e recognizes products that meet the EWG's strictest standards for human health. Data availability rating 3: the extent of the safety data of ingredients contained in the deep skin, and the amount of studies available in the open scientific literature to calculate a product score, let's figure out the hazards of the individual ingredients and evaluate each product in relation 3 the rest of the Products in the deep skin database. These products have gone through the EWG verification process3 and have obtained a Verified EWG mark." Formaldehyde. Lead. Not exactly the words they think about when you're buying your favorite personal care products. Unfortunately, the 3 products in our cosmos, sunscreens and skin products, have become unregulated as the great depressionA 3 n. . If other countries have taken steps to protect their citizens from products related to cancer and reproductive day, the Food and Drug Administration does not require the basic safety testing of ingredients 3 personal care products before they are used. Do you know what it's putting on your skin? We can help you know. A New to the EWG skin depth? WARNING: Merchandise in some categories, such as hair relaxants, have uniformly high hazard scores.
